

**Product Name:** Foam Cleaning Agent

**Part No / SKU:** RXSOL-22-3020-025

**Date of Issue:** September 24, 2026

**Document Type:** Material Safety Data Sheet (MSDS)

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

|              |                   |
|--------------|-------------------|
| Product Name | RXSOL-22-3020-025 |
| Product Type | Foam Agent        |

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Stock Point : Mumbai, Kolkata, Vizag, Chennai, Gandhidham, Muscat OMAN, Fujairah UAE

|         |                                                          |

## 2. COMPOSITION / INFORMATION ON INGREDIENTS

| Chemical Name                    | Concentration | CAS Number | EC Number | R Phrases* | Symbols Disodium |
|----------------------------------|---------------|------------|-----------|------------|------------------|
| Disodium cocoamphodiacetate      | 10-30         | 68650-39-5 | 272-043-5 | 36         | Xi               |
| Other non-classified ingredients | 60-90         | -          | -         | -          | -                |

\*See Section 16

## 3. HAZARDS IDENTIFICATION

### Classification of the substance or mixture

Council Directive 1999/45/EEC Classification, packing and labelling of dangerous preparations. This Safety Data Sheet is provided in compliance with The Dangerous Substances Directive (67/548/EEC). Regulations 1272/2008/EEC. Classification, labeling and packing of dangerous substances and preparations

**Irritant**

|                   |                                                                                                                                    |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Label elements    |                                                                                                                                    |
| Irritant          |                                                                                                                                    |
| Contains          | Disodium cocoamphodiacetate                                                                                                        |
| Risk Phrases      | Irritating to eyes (R36)                                                                                                           |
| Safety Phrases    | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S26). Wear eye/face protection (S39) |
| Other hazards     |                                                                                                                                    |
| Odour             | Sweet-smelling                                                                                                                     |
| Appearance        | Liquid, viscous, pale yellow, soluble in water                                                                                     |
| Contact with eyes | Causes irritation                                                                                                                  |
| Contact with skin | May cause irritation                                                                                                               |
| Inhalation        | Vapours or aerosols may cause irritation of eyes, nose and respiratory tract                                                       |
| Ingestion         | The ingestion of significant quantities may cause gastro-intestinal disturbances                                                   |

#### 4. FIRST AID MEASURES

##### Description of first aid measures

|              |                                                                                                                                                                                                                        |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| IF ON SKIN   | Wash with plenty of soap and water. Contaminated clothing should be laundered before reuse. When in doubt or symptoms persist, seek medical attention                                                                  |
| IF IN EYES   | Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice if necessary                                                                  |
| IF SWALLOWED | rinse mouth. Do NOT induce vomiting. Give plenty of water to drink. Never make an unconscious person vomit or drink fluids. When in doubt or symptoms persist, seek medical attention. Inhalation is unlikely to occur |

##### Most important symptoms and effects, both acute and delayed

Possible redness and irritation of affected areas. Vapours or aerosols may cause irritation of eyes, nose and respiratory tract. The ingestion of significant quantities may cause gastro-intestinal disturbances

##### Indication of immediate medical attention and special treatment needed

#### 5. FIRE FIGHTING MEASURES

##### Extinguishing media

Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions

##### Special hazards arising from the substance or mixture

Smoke from fires is irritating. Take precautions to protect personnel from exposure

##### Advice for firefighters

Wear Breathing Apparatus

## 6. ACCIDENTAL RELEASE MEASURES

|                             |                                                                                                                           |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Personal Precautions        | Wear protective clothing as per section 8                                                                                 |
| Environmental Precautions   | No special precautions are required for this product                                                                      |
| Clean Up Actions            | Absorb spillage in inert material and shovel up Ventilate the area and wash spill site after material pick-up is complete |
| Reference to other sections | None                                                                                                                      |

## 7. HANDLING AND STORAGE

|                     |                                                                                                                             |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Handling            | Wear protective clothing as per section 8. Do not get in eyes, on skin, or on clothing. Eyewash bottles should be available |
| Storage             | Keep only in original container. Store in a well-ventilated place. Keep cool.                                               |
| Specific end use(s) |                                                                                                                             |

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                                |                                                                                                                 |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------|
| Control parameters             | No exposure limits have been set for this substance                                                             |
| Exposure controls              | No special precautions are required for this product                                                            |
| Occupational exposure controls | Wear suitable protective clothing, including eye/face protection and gloves (plastic or rubber are recommended) |
| Gloves Goggles Suit            | No Smoking                                                                                                      |

Gloves

Goggles

Suit

No\_Smoking

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

|                             |                                                        |
|-----------------------------|--------------------------------------------------------|
| Odour                       | Sweet-smelling                                         |
| Appearance                  | Liquid, viscous, pale yellow, soluble in water         |
| pH                          | 8.5 at 100 % concentration, pH ~7 at 1 % concentration |
| Boiling point               | >100 °C at 760 mm /Hg                                  |
| Vapour pressure             | not known                                              |
| Vapour density              | not known                                              |
| Freezing point              | 0 °C at 760 mm/Hg                                      |
| Completely soluble in water |                                                        |
| Specific gravity (water=1)  | 1.09                                                   |
| Non combustible             |                                                        |
| Other information           | None                                                   |

## 10. STABILITY AND REACTIVITY

### Reactivity

This article is considered stable under normal conditions

### Chemical stability

Considered stable under normal conditions

### Possibility of hazardous reactions

No hazardous reactions known if used for its intended purpose

### Conditions to avoid

Avoid overheating. Keep away from frost

### Incompatible materials

None

### Hazardous Decomposition Products

No hazardous decomposition products known

## 11. TOXICOLOGICAL INFORMATION

|                           |                                                                                                                   |
|---------------------------|-------------------------------------------------------------------------------------------------------------------|
| Toxicological information | No experimental data available                                                                                    |
| Inhalation                | In cases of severe exposure, irritation may develop                                                               |
| Contact with skin         | Prolonged skin contact will result in defatting of the skin, leading to irritation, and in some cases, dermatitis |
| Contact with eyes         | Causes irritation                                                                                                 |
| Carcinogenicity           | No evidence of carcinogenic effects                                                                               |

## 12. ECOLOGICAL INFORMATION

|                                         |                                                                                                                                                         |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Toxicity                                | On available data, substance is not harmful to aquatic life. LC50 (fish) 11 mg/l (96 hr). EC50 (daphnia) 150 mg/l (48 hr). IC50 (algae) 74 mg/l (72 hr) |
| Persistence and degradability           | The components in this product are readily biodegradable.                                                                                               |
| Bioaccumulation Potential               | Bioaccumulation of the components in this product is insignificant.                                                                                     |
| Mobility in soil                        | Completely soluble in water                                                                                                                             |
| Results of PBT and vPvB assessment      |                                                                                                                                                         |
| Not a PBT according to REACH Annex XIII |                                                                                                                                                         |
| Other Adverse Effects                   | Presents little or no hazard to the aquatic environment                                                                                                 |

## 13. DISPOSAL CONSIDERATIONS

|                         |                                                                                                                                                                              |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste treatment methods | Do not discharge into drains or the environment, dispose to an authorised waste collection point. Disposal should be in accordance with local, state or national legislation |
| Classification          | EU Waste class: -                                                                                                                                                            |

## 14. TRANSPORT INFORMATION

|                                                                                           |                              |                                                                |
