**2. COMPOSITION / INFORMATION ON INGREDIENTS**

| Chemical Name        | CAS      | EC number | Weight | Formula                                        |
|----------------------|----------|-----------|--------|------------------------------------------------|
| Ditridecyl phthalate | 119-06-2 | --        | 100 %  | C <sub>34</sub> H <sub>58</sub> O <sub>4</sub> |

### 3. HAZARDS IDENTIFICATION

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Signal Word                                | Danger                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Hazard Statements                          | H225 Highly flammable liquid and vapor. H290 May be corrosive to metals. H301 + H311 + H331 Toxic if swallowed, in contact with skin or if inhaled. H314 Causes severe skin burns and eye damage. H370 Causes damage to organs (Eyes, Central nervous system).                                                                                                                                                                                                                                                                                                                                                                         |
| Precautionary statements                   | P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233 Keep container tightly closed. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. P304 + P340 + P310 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/ doctor. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| Classification of the substance or mixture | Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Supplemental Hazard Statements             | EUH014 Reacts violently with water.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Other hazards                              | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                                                                                                                                                                                                                                                                                                                                                                                                     |

### 4. FIRST AID MEASURES

|                                                                            |                                                                                                                                                            |
|----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                                             | None.                                                                                                                                                      |
| If inhaled                                                                 | If breathed in, move person into fresh air. If not breathing, give artificial respiration.                                                                 |
| Eye Contact                                                                | Flush eyes with water as a precaution.                                                                                                                     |
| Swallowed                                                                  | Never give anything by mouth to an unconscious person. Rinse mouth with water.                                                                             |
| Skin Contact                                                               | Wash off with soap and plenty of water.                                                                                                                    |
| Inhalation                                                                 | Remove patient to fresh air, keep warm and at rest and get medical assistance in necessary.                                                                |
| Ingestion                                                                  | Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately. |
| Most important symptoms and effects, both acute and delaye                 | No data available                                                                                                                                          |
| Indication of any immediate medical attention and special treatment needed | No data available                                                                                                                                          |

## 5. FIRE FIGHTING MEASURES

|                                                       |                                                                                                                                                                                                                       |
|-------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flammability                                          | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.                                                                                                                                              |
| Suitable extinguishing media                          | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.                                                                                                                                              |
| Unsuitable extinguishing media                        | Water Foam                                                                                                                                                                                                            |
| Special hazards arising from the substance or mixture | Carbon oxides                                                                                                                                                                                                         |
| Further information                                   | Remove container from danger zone and cool with water. Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system. |
| Hazardous combustion products                         | Fire may cause the evolution of Sulphur oxides, nitrogen oxides.                                                                                                                                                      |
| Advice for firefighters                               | Wear self-contained breathing apparatus for firefighting if necessary.                                                                                                                                                |
| Protective Equipment                                  | Use personal protective equipment.                                                                                                                                                                                    |
| Specific Hazards Arising from the Chemical            | Oxides of phosphorus Sodium oxides Not combustible. Fire may cause evolution of: Oxides of phosphorus Ambient fire may liberate hazardous vapours.                                                                    |

## 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | Avoid dust formation. Avoid breathing vapors, mist or gas. For personal protection see section 8.                                                                                                                                                                                                                                       |
| Spillage                                                            | Oxidizing material. Stop leak if without risk. Avoid contact with a combustible material (wood, paper, oil, clothing...). Keep substance damp using water spray. Do not touch spilled material. Prevent entry into sewers, basements or confined areas dike if needed. Eliminate all ignition sources. Call for assistance on disposal. |
| Environmental Precaution                                            | Do not let product enter drains.                                                                                                                                                                                                                                                                                                        |
| Methods and materials for containment and cleaning                  | Sweep up and shovel. Keep in suitable, closed containers for disposal.                                                                                                                                                                                                                                                                  |

## 7. HANDLING AND STORAGE

|                                                 |                                                                                                                                                                   |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | Provide appropriate exhaust ventilation at places where dust is formed.                                                                                           |
| Incompatible materials                          | Keep away from alkalis, strong oxidizing agents and metals. Provide containment walls of adequate capacity to hold any accidental spills.                         |
| Hygiene measures                                | General industrial hygiene practice. For precautions see section 2.2.                                                                                             |
| Precautions for safe handling                   | Work under hood. Do not inhale substance/mixture. Avoid generation of vapours/aerosols. Keep workplace dry. Do not allow product to come into contact with water. |
| Storage conditions                              | Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Store under inert gas.                                                     |
| Storage class                                   | Storage class (TRGS 510): 13: Non Combustible Solids                                                                                                              |
| Specific end use(s)                             | Apart from the uses mentioned in section 1.2 no other specific uses are stipulated                                                                                |
| Advice on general occupational hygiene          | Advice on safe handling Observe label precautions. Change contaminated clothing. Wash hands after working with substance.                                         |
| Requirements for storage                        | Keep in cool and store under shade.                                                                                                                               |

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure controls                 | Appropriate engineering controls Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.                                                                                                                                                                                                                                                                                           |
| Control parameters                | Contains no components with established occupational exposure limits.                                                                                                                                                                                                                                                                                                                                                                                 |
| Engineering Control               | A laboratory fumehood or other appropriate form of local exhaust ventilation should be used to avoid exposure.                                                                                                                                                                                                                                                                                                                                        |
| Eye/face protection               | Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).                                                                                                                                                                                                                                                                                                                         |
| Body Protection                   | Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.                                                                                                                                                           |
| Skin protection                   | Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it. |
| Respiratory protection            | Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).                                                                                                                                                                       |
| Other Protection Measure          | Handle in accordance with good industrial hygiene and safety practice.                                                                                                                                                                                                                                                                                                                                                                                |
| Control of environmental exposure | Do not let product enter drains.                                                                                                                                                                                                                                                                                                                                                                                                                      |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                              |                           |
|----------------------------------------------|---------------------------|
| Physical state                               | Solid                     |
| Colour                                       | No data available         |
| Odour                                        | No data available         |
| Odor Threshold                               | No data available         |
| pH                                           | No data available         |
| Melting Point                                | No data available         |
| Boiling Point                                | No data available         |
| Flash Point                                  | No data available         |
| Evaporation Rate                             | Not Applicable            |
| Flammability (solid, gas)                    | No data available         |
| Explosive limits                             | No Data Available         |
| Upper/lower flammability or explosive limits | No data available         |
| Autoignition temperature                     | No data available         |
| Decomposition temperature                    | No data available         |
| Vapour pressure                              | No data available         |
| Density                                      | No data available         |
| Relative Density                             | No data available         |
| Relative vapor density                       | No data available         |
| Freezing point                               | No data available         |
| Viscosity dynamic                            | No data available         |
| Partition coefficient                        | No data available         |
| Explosive properties                         | No data available         |
| Solubility                                   | No data available         |
| Ignition temperature                         | No information available. |
| Particle characteristics                     | No data available         |

## 10. STABILITY AND REACTIVITY

|                                    |                                              |
|------------------------------------|----------------------------------------------|
| Reactivity                         | No data available                            |
| Stability                          | Stable under recommended storage conditions. |
| Possibility of hazardous reactions | No data available                            |
| Conditions to avoid                | No data available                            |
| Incompatible materials             | Strong oxidizing agents                      |
| Hazardous decomposition products   | No data available                            |

## 11. TOXICOLOGICAL INFORMATION

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Acute toxicity                                   | Oral: No data available Inhalation: No data available Dermal: No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Skin corrosion/irritation                        | Remarks: No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Serious eye damage/eye irritation                | Remarks: No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Respiratory or skin sensitization                | In vivo assay - Mouse Result: Does not cause skin sensitization. Remarks: (ECHA)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Toxic Effects on Human                           | May cause damage to the following organs: upper respiratory tract. Other Toxic Effects on Humans: Hazardous in case of skin contact (irritant, sensitizer), of ingestion, of inhalation (lung irritant, lung sensitizer).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Carcinogenicity                                  | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Germ cell mutagenicity                           | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Reproductive toxicity                            | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Specific target organ toxicity - single exposure | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Special Remarks on other Toxi Effects on Humans  | Acute Potential Health Effects: Skin: Causes skin irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon re-exposure to this material. Eyes: Causes eye irritation. Ingestion: Causes gastrointestinal (digestive) tract irritation with nausea, vomiting, and diarrhea. May be harmful if swallowed. Inhalation: Causes respiratory tract irritation. May cause chemical pneumonitis and pulmonary edema, inflammation, edema of bronchi and larynx. Chronic Potential Health Effects: Repeated or prolonged skin exposure may cause allergic reactions in sensitive individuals. Repeated or prolonged exposure by inhalation may affect respiration and metabolism. |
| Endocrine disrupting properties                  | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.                                                                                                                                                                                                                                                                                                                      |

## 12. ECOLOGICAL INFORMATION

| Toxicity to fish                                    | Flow-through test LC50 - <i>Lepomis macrochirus</i> (Bluegill) -15.400 mg/l - 96 h (US-EPA) Remarks: Methanol                                                                                                                                               |
| Toxicity to daphnia and other aquatic invertebrates | Static test EC50 - <i>Daphnia magna</i> (Water flea) - > 10.000 mg/l - 48 h (DIN 38412) Remarks: Methanol EC5 - <i>E.sulcatum</i> - > 10.000 mg/l - 72 h Remarks: (Lit.)                                                                                    |
| Toxicity to algae                                   | Static test ErC50 - <i>Pseudokirchneriella subcapitata</i> - ca. 22.000 mg/l - 96 h (OECD Test Guideline 201) Remarks: Methanol                                                                                                                             |
| Toxicity to bacteria                                | Static test IC50 - activated sludge - > 1.000 mg/l - 3 h (OECD Test Guideline 209) Remarks: Methanol                                                                                                                                                        |
| Mobility in soil                                    | No Information available                                                                                                                                                                                                                                    |
| Results of PBT and vPvB assessment                  | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                          |
| Endocrine disrupting properties                     | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. |
| Other adverse effects                               | No data available                                                                                                                                                                                                                                           |

### 13. DISPOSAL CONSIDERATIONS

|                        |                                                                                                                                                                                                                                                          |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal methods       | The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems. |
| Contaminated packaging | Dispose of as unused product.                                                                                                                                                                                                                            |
| Waste treatment Method | Offer surplus and non-recyclable solutions to a licensed disposal company.                                                                                                                                                                               |

### 14. TRANSPORT INFORMATION

|                            |                   |          |          |
|----------------------------|-------------------|----------|----------|
