

**Product Name:** Hypochlorous  
**Date of Issue:** September 08, 2026

**Part No / SKU:** RXSOL-25-6400-010  
**Document Type:** Material Safety Data Sheet (MSDS)

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

|              |                          |
|--------------|--------------------------|
| Product Name | Hypochlorous Acid (HClO) |
| Product Type | RXSOL-95-6400-220        |

### Company Details:

RX MARINE INTERNATIONAL

105, A wing , BSEL , TECH PARK.

VASHI ,NEW BOMBAY 400703 INDIA

Stock Point ::: Mumbai, Kandla, Kolkata, Chennai, Visakhaptnam, Fujairah, Muscat

|       |                                                          |
|-------|----------------------------------------------------------|
| Phone | +91 22 27815540 / 41 / 42                                |
| Fax   | +91 22 2781 1318 :::AOH :0091 9322594669                 |
| Email | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

## 2. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical nature Aqueous solution

Substance: not applicable

Mixture

| Chemical Name            | (Concentration)      | CAS-No.   |
|--------------------------|----------------------|-----------|
| Hypochlorous Acid (HClO) | (>= 50 % - = 100 % ) | 7790-92-3 |

## 3. HAZARDS IDENTIFICATION

**Adverse Human Effects and Symptoms:** None of the ingredients are classified as Hazardous in the amounts present in the product. Under normal conditions of use the likelihood of any adverse health effects is minimal.

**Dangerous components of the product:** Identification: - None

**Danger Symbol:-** None

**Hazard Classification of the Chemical:** Non-Flammable, Non-Toxic, Non-Corrosive

## 4. FIRST AID MEASURES

**Signs and symptoms of poisoning:** None detected – refer to water intoxication

**First-Aid procedures:** Non-specific. Use good personal hygiene practices.

**Signs and symptoms of poisoning:** None detected – refer to water intoxication

**Inhalation:** If inhaled, remove to fresh to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give Oxygen. Get medical attention.

**Ingestion:** Do not induce vomiting unless directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention.

**Skin Contact:** The compound is not likely to be hazardous by skin contact but cleansing the skin after use is advisable.

**Eye Contact:** Remove contact lenses. Flush eyes thoroughly with water for 15 minutes. If irritation persists, get medical attention.

## 5. FIRE FIGHTING MEASURES

**Fire:** Not considered to be a fire hazard.

**Explosion:** Not considered to be an explosion hazard.

**Fire Extinguishing Media:** Water, Carbon Dioxide, or other dry chemical fire fighting agents.

## 6. ACCIDENTAL RELEASE MEASURES

**Spillages:** Leaks and spills can be removed in accordance with methods employed for ordinary water. Wash to waste with plenty of water.

## 7. HANDLING AND STORAGE

**Handling concentrated product:** No special precautions necessary. Make sure to practice good hygiene by wearing gloves and well covered eye wear

**Handling or applying diluted product:** No special precautions necessary. Make sure to practice good hygiene by wearing gloves and well covered eye wear

**Storage:** Optimal efficacy of the product will be prolonged if it is stored away from direct sunlight and in sealed, airtight opaque or tinted glass containers

**Other precautions:** Keep out of reach of uninformed persons, children and animals.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**Airborne Exposure Limits:** N/A

**Ventilation System:** Use in adequate ventilation areas.

**Personal Protective Equipment (PPE) Eye Protection:** Wear chemical safety goggles where splashing of solution is possible.

**Respiratory Protection:** Not required.

**Skin and Body Protection:** Not required.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

**Physical state:** Liquid.

**Chemical pH** = 6.0-6.5, friendly to your skin.

**Appearance:** Homogeneous

**liquid Oxidation Reduction Potential ORP** =  $750 \pm 150\text{mV}$

**Colour:** hazy

**Solubility:** Complete in water

**Odour:** Mild chlorine/ozone odour

**Boiling point** :100 °C

**Relative Density:** 8.5 lb/gal

**Vapor Pressure:** Same as water

## 10. STABILITY AND REACTIVITY

**Stability:** The product is stable under normal ambient conditions of temperature and pressure. It retains its optimal [i.e. sporicidal activity] Oxidation Reduction Potential (ORP) for a period of up to 48 hours, whereafter it progressively degrades to the ORP of source water.

**Incompatibility (material to avoid):** As a dilute aqueous solution it is reactive with concentrated acid and alkaline solutions as per standard chemical practices.

**Hazardous decomposition or bi-products:** It degrades to the quality of source water. May produce Oxides of Chlorine vapours.

**Hazardous polymerisation:** No hazardous polymerisation products have been detected.

**Possibility of Hazardous Reactions and Conditions to Avoid:** Avoid heat, freezing temperature, sunlight, ultraviolet, and contamination with foreign and/or incompatible materials

## 11. TOXICOLOGICAL INFORMATION

**Acute toxicity:** LD50 (oral: Rat) > 20,000mg/kg

**Acute dermal irritation:** Negative

**Acute eye irritation:** Negative

**Dermal Sensitisation** – Guinea Pig: Negative

**Mutagenicity (Ames test):** Negative for In-vitro Salmonella typhimurium mutagenic studies

**Cytogenicity:** At 500ppm available chlorine, no Cytogenetic activity on mice bone marrow chromosomes was induced.

**Carcinogenicity:** No conclusion on the carcinogenicity of chlorine can be made from the limited information available from human and animal studies.

**Inhalation:** Not available

**Occupational exposure limits:** None

**Health hazards:** There are no known health hazards

## 12. ECOLOGICAL INFORMATION

**Environmental data:** Presents no hazard to the environment

**Degradability:** It degrades to source water quality with a low sodium chloride mineralisation allied to the input concentration of the salt.

**Hazards:** non-hazardous to human and animal tissue.

## 13. DISPOSAL CONSIDERATIONS

**Waste disposal:** Where permitted, It can be disposed of in municipal drains without adverse effects. However, where required, local environmental regulatory requirements should be followed. The oxidant activity of hypochlorous acid can be neutralised with surplus organic matter/soiling - Dilute to waste with plenty of water

## 14. TRANSPORT INFORMATION

**UN Proper Shipping Name:** N/A

**UN Number:** N/A

**Hazard Class/ Division:** N/A

No specific transport requirements are necessary.

## 15. REGULATORY INFORMATION

**Regulations specific to the product.** Refer to sections 1, 2, 3 & 4.

**TSCA:** N/A

**SARA 313** Not applicable

## 16. OTHER INFORMATION AND DISCLAIMER

DISCLAIMER: This information is based on our current knowledge and is intended to describe the product for the purposes of health and safety requirements only. It should not, therefore, in itself be construed as a guarantee of any specific quality relating to the product, which will depend on the terms of the contract of trial or sale. The user must satisfy himself/herself that the product is suitable for his/her purpose.

DISCLAIMER OF LIABILITY :The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
